Maroondah Voice invites you to join us at Heathmont College on Wednesday June 13 at 6.30pm for 7pm to explore youth mental health and community wellbeing.

The conversation is for

- Parents, grandparents and significant ‘others’ of young people in Maroondah.
- Young people, aged 10-25 years who wish to learn more about mental health.
- Teachers, club officials and players, small business owners and managers.
- Community service carers. Service Providers and health professionals.

The featured presenters in the conversation are:

**Prof Patrick McGorry, AO**
World leading researcher in youth mental health from the University of Melbourne.

**Dr Peggy Kern.** Senior Lecturer, Centre for Positive Psychology, the University of Melbourne

**Mr Joshua Baker.** Local Sporting Identity

**Mr Peter Feeney.** Chair. Communities of Wellbeing Inc.

**Our Partners**
In bringing together an audience of concerned people, our partners are Heathmont College promoting positive education, Communities of Wellbeing Inc, Bendigo Community Bank, IGA, SALT (Sport and Life Training), the Footmen Foundation Inc, Maroondah City Council, East Ringwood Football Club, a number of Maroondah churches and others. They contribute significantly to bringing people from crisis to hope.

At the night’s end, we hope every person in the room is inspired to act upon an idea or strategy to help a young person, and their ‘family’ to grow in wellbeing. Or, join others, who are!
