Competitive Cricket for Girls

Hello Parents,

I'm Shanaya's mum, and she is in **Grade 6** and currently playing competitive cricket in the **HCCA Women's Cricket Competition.**

What I've noticed is how much she is gaining from the experience – more practice, a better understanding of the game, and the opportunity to play alongside girls and women from different cultural backgrounds.

I'm wondering if your daughter would be interested in joining us too!
