

SCIENCE WEEK IN SCHOOLS AT WHEELERS HILL VIRTUAL INCURSION 2020 for Year Seven

Celebrate the National Science Week 2020 Schools Theme: 'Deep Blue: innovations for the future of our oceans'

Live-On-Film Performance by Perform Education

This Science Week in Schools Virtual Incursion is educational and interactive for both students and teachers to be engaged throughout. The performance is captured live-on-film with multi-cameras and in high definition, meaning everyone watching will be doing so from the best seat in the house.

A unique learning experience, when students watch the live-in-film performance they are absorbed in real 'live theatre', with interactive components for students to answer questions and be captivated by the sketch comedy with fun scientific facts! Hosting a *Perform Education Virtual Incursion* means the whole class can be involved even when being delivered via remote learning to your home.

Interactive Q&A

For further learning and student interaction there will be a post-performance Q&A which will provide your students with the opportunity to explore some of the key questions connected to the learning points. Additionally, there will be an opportunity for your students to ask questions online with our actors and creative team.

Program Overview

The oceans are needlessly being harmed on a daily basis. In today's ever-changing world, those tasked with conserving our planet's resources are members of an elite squad: **The Marine Team**. This educational incursion engages grade 5-9 school students in marine science and innovation to achieve long-term sustainability of our oceans.

The Marine Team is a 45 minute, live-on-film sketch comedy that consists of two professional actor/educators with two goals.

The first goal is to highlight **what is ocean sustainability, how oceans impact our planet, solutions that generate healthy oceans** and **how YOU can help embrace innovative ocean technology**. The second goal is to make your students laugh so hard that they forget they're learning!

Consent Needed!

While there is no cost to students for this event we do need parents to give consent via the Compass portal.

Please complete this as soon as possible and before the 20th of August.

Quick Information

Virtual Incursion Dates - Term 3:

Each Year 7 class will schedule a session during remote learning in the week starting 24th August

Duration:

45 minute session made up of

- 40 minute viewing time
- 5 minute post performance Q&A

Meet the Actors & Writer:

Time permitting classes may schedule a separate live-stream session for their own extended Q&A
