

2020 with 4T

This year has been a real challenge for the students of 4T and for their teacher. There have been many new experiences, which have been good and bad. Despite the disruptions, which were the results of Covid-19, the class continued to grow and develop. Home Learning and the challenges of using technology were embraced by all participants. This new-found resilience and the new skills and strategies they have established should better prepare them for the future, both at school and in the work force. It has been an honour and privilege to be involved over this period. Mr T
