MAGIS: THE JOY OF LEARNING MORE!

Magis is the Latin word mean ‘more; to a greater extent,’ and is one of the core principles of an Ignatian education. *Magis* is a call to strive for excellence; to make the most of our God-given talents; and to use them to serve others. It is a philosophy that guides our *Magis* students to push themselves further in all areas of College life – from their academic achievements, their commitment to extra-curricular activities, to their service and leadership within the College and wider community.

We congratulate our Semester 1 scholars on the successful competition of their *Magis* Elective Course.
