[A family technology plan: how to make one](#)

[Online safety: children 6-8 years](#)

[Online safety: how parent-child relationships protect children](#)

[Online safety: pre-teens 9-11 years](#)

Other resources

[Traffic Lights](#)

This globally recognised program and framework, developed by True Queensland, is intended to assist professionals recognise sexual behaviours in children and young people. The program provides professionals with a framework that is age and developmentally appropriate, positive, and protective. Traffic Lights uses the categories of green, orange and red light to help adults identify, understand, and respond to children and young people's sexual behaviours, to support healthy sexual development and can help protect children and young people from harm or abuse. Sexual Health Victoria are now running the training face to face in Victoria.

[Be Safe Online](#)

Developed by Scope and funded through the eSafety Commissioner's Online Safety Grant Program, this set of communication resources and training intends to better equip children and young people with disability and low literacy with the skills and knowledge they need to better protect themselves online.
