

JobJump Careers News Subject Bulletin

13 June 2019

**IMPORTANT MESSAGE TO HEAD TEACHERS and ALL STAFF
and to Parents,**

It may only take one piece of news to lead a student towards success in their life's career.

If you know students enjoy your subject, this is a great way to assist them, so please encourage them to take part in those events mentioned below in your Subject Area.

Find below a listing of special careers news that have also been emailed out to many of our students and their parents.

HSC SUBJECT KLA / FACULTIES

CAPA

Dance, Drama, Music, Visual Arts

WSU - Bachelor of Music Early Entry

The early offer pathway into the Bachelor of Music is now open! To be eligible for this, students need to book in an audition through the Western Sydney University online booking system. For more information, please visit:

<https://www.westernsydney.edu.au/future/study/how-to-apply/music-applicants.html?cid=em:2019musicauditions-group1>

National Art School Open Day

7 September

At the National Art School, we believe that an artist's role is to think creatively and critically about the world through the making of art. We offer you the opportunity to shape your future as a forward thinking artist in a dynamic, supportive and collaborative environment. If you have an artistic edge, something to say and the desire to create, the National Art School is the place for you.

<https://nas.edu.au/calendar-of-events/>

National Art School Holiday Workshops

Calling all artists from 6 to 18, from beginners to HSC students – school holiday workshops are now on!

With small groups, individual attention and an emphasis on creativity and experimentation, the NAS holiday programs are a great way to begin or extend a life in art. There are even specialist classes for high school students who want to extend their learning outside the confines of a classroom.

All classes take place in a creative studio environment and are given by artist-lecturers who have a deep and practical knowledge of the endless possibilities art offers to young people. Programs are offered in drawing, painting, ceramics, sculpture, printmaking, photomedia and textiles.

MATHS and SCIENCE

Senior Science, Biology, Chemistry, Earth and Environmental Science, Physics

UNSW HSC Maths Course Selection Advice

While we encourage everyone to study the level of maths at which they feel sufficiently challenged, below are some guidelines for the minimum level of maths required for some of our degrees. Please also see [Assumed Knowledge](#) for more information. Studying at least HSC Mathematics Extension 1 will leave your options open when you choose your university degree. Knowledge of mathematics is a useful skill in any profession, even if it is not required for a particular course. No doubt, you will have to use mathematical tools such as graphs and statistics for the rest of your life. Learning mathematics also teaches you to approach problems in a systematic and logical way. This is a transferable skill that is particularly important in project management and it is an important skill for life.

<https://www.maths.unsw.edu.au/highschool/hsc-course-selection>

Closing soon: Engineering and Technology Cadetships

Closes 21 June

Engineering Cadets combine university study with paid work at a global leader in creating information solutions.

Technology Cadets study at university while working at Macquarie Group. On graduation, cadets can head for a career in technology and business.

Contact Alister Wilkinson from Professional Cadetships Australia at: alisterwilkinson@professionalcadets.com.au

Astronomy: HSC Relativity

Physics Stage 6 Module 7: The Nature of Light (ACSPH133)

[Sydney Observatory](#), 1003 Upper Fort St, Millers Point

Explore Einstein's Special Theory of Relativity using custom 3D visualisation software. Learners will discover the origin of the time dilation equation using Pythagoras' simple theorem – no complicated mathematics required! Study space-time to see why simultaneous events are special, and even visualise the concept of length contraction. Join us for a Q&A session around all things Relativity, while enjoying some light refreshments. If weather permits, learners will use a telescope to look at objects in the sky. Bookings here:

<https://maas.museum/program/hsc-relativity/>

How to future proof your career – STEM Leaders Panel

20 June

Sydney School of Entrepreneurship, Building J, 651-731 Harris St. Ultimo

What's the secret to having a great career in STEM and how can we get more women and girls involved? Find out with our panel of inspiring female leaders.

<https://www.eventbrite.com.au/e/how-to-future-proof-your-career-a-panel-discussion-with-stem-leaders-tickets-62035276181?aff=ebdssbdestsearch>

Australian College of Nursing – Scholarships

We understand that financial support to undertake further study to pursue your nursing career and passion is not so easy to find. ACN offers a range of grants open to Fellows and Members who wish to undertake further study. The grants range in value from \$1,000 to \$30,000 and provide opportunities for members to undertake further study at diploma or masters level.

<https://www.acn.edu.au/scholarships>

ANSTO Tour & Public Lecture

The Astro Square Kilometre Array: Australia's International Mega Science Project

Tuesday 25 June

RSVP Sunday 23 June

ANSTO Discovery Centre

In the Western Australia desert, we're getting ready to host the world's largest radio telescope. 130,000 antennas will look back to just after the big bang, seeing the first galaxies as they start to shine.

The event is in association with ANSTO, CSIRO and Royal Australian Chemical Institute.

Come along and listen to Dr Sarah Pearce (CSIRO Astronomy and Space Science). Sarah manages the CSIRO SKA (Square Kilometre Array). Tour and public lecture: FREE

5:00 pm: Tour of OPAL multi-purpose reactor and Australian Centre for Neutron Scattering

6:00 pm: Refreshments

6:30 pm: Presentation from Dr Sarah Pearce

7:30 pm: Optional Dinner at Rocksalt Menai \$50

<https://www.eventbrite.com.au/e/big-science-the-square-kilometre-array-tickets-63027175980>

We Need Country Doctors. Check this and see the great benefits. It will change your life.

If you're considering becoming a general practitioner in rural and remote Australia, you should choose a Fellowship with the Australian College of Rural and Remote Medicine. The paths that take you to Fellowship will help you become truly confident in the knowledge that you have what it takes to succeed in the dynamic context of rural and remote general practice.

We understand that training as a rural generalist is as much a lifestyle choice as it is a medical career. That's why our training pathways and resources fit your life, not the other way around. We offer you:

- flexible study options
- access to training providers across Australia
- ongoing assessment as opposed to a final exam
- ongoing feedback via virtual classrooms
- great job opportunities leading to better pay
- extended skills options in general practice

It's all part of our continued effort to take the isolation out of rural and remote practice. See our easy to understand step-by-step guide to becoming a rural generalist and take the first step on your pathway to becoming a Fellow of the College today.

Rural Training Pathways

Are you going to be a medical Student, Intern, or Registrar interested in becoming a rural generalist?

The Australian College of Rural and Remote Medicine offers a variety of training pathways and courses for anyone interested in working in and making a positive difference to rural and remote medicine. Whether you live in the hustle and bustle of one Australia's cities, or half way around the world, the College can help you pave your way to help others in rural and remote Australia.

See below for all locations across Australia for different medical schools and training posts to suit your needs.

<http://www.acrrm.org.au/preparing-for-your-career/becoming-a-rural-general-practitioner>

Reminder - Experience It! for Girls Years 7-10, University of Wollongong

UOW - How neutrons will save the world - 2019 Women in Physics Public Lecture from the Science Space

Friday 9 August. 6:30 pm – 7:30 pm

Science Space, 60 Squires Way, North Wollongong [View Map](#)

The School of Physics at the University of Wollongong, along with the Australian Institute of Physics is presenting a FREE Public Lecture, proudly hosted by the Science Space.

Come along and listen to Dr Helen Maynard-Casely, from ANSTO.

Dr Casely's expertise is in the study of small molecules and ices under pressure – she completed her PhD in High Pressure Physics at the University of Edinburgh. She is currently working as an instrument scientist for the WOMBAT high intensity powder diffractometer. Much of this work is motivated by the wish to understand the interiors of planetary bodies.

SIBT (Sydney Institute of Business & Technology) Information Sessions Open

Level 4, 255 Elizabeth St, Sydney

We treat every day as an Open Day, there are no set times or days, we can meet you at a time that's convenient to you. At Sydney Institute of Business and Technology (SIBT), transitioning to university is simple. An SIBT diploma is the equivalent to the first year of a bachelor's degree, so you can fast track your way into your second year of a bachelor's degree at Western Sydney University, Sydney City Campus. If you're unsure of what to study or if you need help to plan your pathway to university, let our experienced team help you with these difficult choices. 02 9964 6555. E: study@sibt.nsw.edu.au

Tocal College (NSW DPI) Scholarship Program Provides Significant Financial Assistance

Tocal's Scholarship program awarded funds to over 70% of full time students with mid-year allocations to occur. Scholarships are held in student accounts and used for course costs and approved extra-curricular training activities e.g. Bison Horse clinics, Working Dogs or Trials Motorbike courses. The majority of Tocal students are normally eligible for Youth Allowance.
