

Cecil Hills High School

Cooler Classrooms Program

Update for parents and guardians

Nov 2020

Investing in our schools

The Cooler Classrooms Program is a \$500 million, five-year investment by the NSW Government to improve learning environments in public schools across NSW.

We are committed to delivering a quality, sustainable and cost effective program to ensure our students enjoy the healthy and comfortable learning environments.

Scope of works

At your school, the program will deliver:

- Air conditioning and fresh air ventilation in 42 classrooms and library spaces
- Remove unflued heaters in classrooms and library spaces as appropriate.
- Upgrade to Sub Station

Progress summary

An air conditioning, heating and fresh air ventilation solution has been designed to meet the scope of works. Ron Bateman Pty Ltd has been awarded the installation contract.

Installation works to begin

Installation works will begin 17 November 2020.

Work will take place between 6am and 6pm Monday - Friday, and 7:30am and 3:00pm Saturdays.

It is estimated construction works may take up to 26 weeks. An installation plan has been developed to minimise disruption of construction works on school operations.

We will continue to work with the contractor, Ron Bateman Pty Ltd, to ensure any disruption to our neighbours is kept to a minimum.

If you have any questions about this project please contact us on the details below.
