

Trampolines

Trampolines are big and small.

Bouncing high in the sky oh so tall.

Three sixty quad bounce backflip.

Sideflip one eighty whip.

Triple bounce about to die close call.

People

Always say hi back to people if they say hi

Didn't you know that people have little pieces of God in them?

Because He made us in his image

So people love and are everyone and everything.

iPhone

I asked my mum to buy me an apple iphone

But she said, "No way!"

I didn't know why?

So I asked how much I'd have to pay

But then she said: "An arm and a leg."

I just stared, feeling pretty bummed

Until I learnt that that was just an IDIOM

(2 years later) I still don't have that phone!

Lighting

Lighting everything in its path

I am totally petrified

Gust of winds joining forces with the lightning

Horror right in front of me

Thunder coming at me like a bullet

No way to hide I have to run

I am frozen with fear

Nothing left on the street

Girls and boys are screaming

PLANTS

Plenty of plentiful ways to help the environment.

Lavish and extraordinary ways of growth and appearance.

Any tree will help clean the air and produce fresh oxygen.

Not at all a problem, it's sad that we have to cut them down.

Terrain looks very plain without trees and plants.

So many ways that plants benefit our world.
