19 September 2022

Apply for the Schools Recommendation Scheme by midnight on 19 September 2022.

<https://www.uac.edu.au/future-applicants/scholarships-and-schemes/schools-recommendation-schemes>

UAC webinar: Let's Chat – Business/Law students

22 Jun 2022. 6.00pm

Current business and law students from a range of universities share why they chose their course and their experiences of student life. If you are interested in business and law then this session is for you.

Current students from a range of uni's share their experiences of student life. Topics covered include: how they decided on the course they are studying what they found easy about the process of applying and enrolling, what they thought uni would be like and the best thing about being at uni.

UAC webinar: Let's Chat – Business, Commerce and Economics

29 June 2022. 6.00pm

Thinking of applying for a business, commerce or economics degree? We'll provide HSC students and their parents with information about related HSC courses, available degrees and majors, and your options if you don't meet the entry requirements. In this session we'll give HSC students and their parents the information they need when applying for a Business, Commerce or Economics degree. We'll be joined by university experts to discuss available degrees and majors and entry requirements.

<https://uacdigital.easywebinar.live/registration-lets-chat-business-commerce-and-economics>

UAC webinar: Let's Chat – Mental Health and the HSC

8 June 2022. 6.00pm

A panel of experts will help HSC students and their parents identify the differences between healthy stress and more serious mental health challenges. We understand that some stress is healthy; however, we don't want it to negatively impact your life during the HSC. We'll discuss healthy stress vs unhealthy stress and strategies to minimise stress.

UNIVERSITY

University of Sydney - Bachelor of Design (Interaction Design)

May 11, 2022. 04:00pm

The University of Sydney has launched a new Bachelor of Design (Interaction Design) degree. This new degree will prepare you to be at the leading edge of interaction design and a career in an ever-expanding field. You will develop a deep and rich understanding of how people interact and experience the world around us, and discover how to design, prototype, and test new products, services and experiences. Combining technical design skills such as programming, interface and intelligent systems design with critical and creative user-centred, ethical and social design practices, you will have the opportunity to put those deep skills into practice, solving real world problems in design studio units. Learn more about this degree from the Program Director and find out how you can kick start an exciting career in interaction design.

Accelerate your SAT/ACT

While the US application process is a holistic one with admissions officers taking into account the various aspects of your Common Application, your SAT and/or ACT and SAT Subject Test results often act as deciding factors as to whether or not your application is given a thorough read by an admissions officer.

GENERAL

What Will the Future Workforce Look Like?

It is no secret that the job paths and skills of young Australians are about to experience significant change, moving away from routine, manual tasks into a world of automation and critical innovation. This great shift in the working order has seen a change in priorities both at work and in career trajectories, with an increasing number of young people being left behind as the working world moves forward.

What the future of work will look like
