Term 4 2020

Hello Kelly Club families. We have had a great start to Term 4, it is great to see lots of children slowly returning to Kelly Club after such a long time away.

So far this term we have enjoyed lots of cooking activities, sport, art & craft and messy play. A highlight this term was “Halloween” week. The children did lots of Halloween crafts including making spooky jelly which was filled with eyeballs, snakes and fingers, we made spider lollipops, paper bats and did spiderweb threading, making webs out of wool and ice block sticks. The children also took part in a halloween colouring competition. They all did such an amazing job colouring. Well done to Aaliyah C for taking away first place!

Last week we had a “colours” theme, the children made rainbow toast and made rainbows from paper plates and cotton wool. A highlight for the week was our Science experiments using skittles and water, and food colouring, milk and dish soap. It was great to see the children excited and getting involved with these activities. We look forward to some more fun times ahead in Kelly Club.

Reminders:

- **Children must bring a hat to after care. The hat must be named (does NOT need to be a school hat)**
- **Holiday program flyers will be sent out next week**
