

WINTER HOLIDAY PROGRAM

Monday 9 July to Friday 13 July, 2018

Join us for an awesome week of

Theatresports | Kerbal Space Program | Arduino Programming |
Chess | Making Gyoza Dumplings | Planks | Games |
Arts and Crafts | Tennis and Fencing

**Suitable for boys and girls
Grades 3 to 7**

9.00 am to 3.00 pm

\$75 per day

Bookings:

<https://bit.ly/2LoVmb9>

**This is a set program and
places will be limited!**

(Images from past program)

Children will enjoy exploring Theatresports, constructing using Planks and participating in Fencing, Chess, Tennis Skills, Arts and Crafts. The Travelling Kitchen will visit to show us how to make yummy Gyoza dumplings. Plus we will again run the very popular, with girls and boys, Kerbal Space Program where children will experience the physics and complexities, as well as the excitement and elation, of building a rocket and piloting it into space.

Through learning to program using the new 'Eureka' learning shield for Arduino they will learn how a traffic signal works, blink LED lights, detect magnetic fields, light, temperature and make music and sounds like the super mario game, so who knows what they will be inspired to invent in the future.

Preshil has been running outstanding STEAM electives for several years now and is very keen to offer these opportunities during our school holidays, so please tell your friends.

Location: Preshil Secondary School
12 - 26 Sackville St, Kew
