

Friday 13<sup>th</sup> of February marked our inaugural game in the Inter School Sports competition! We are competing in the SSSSA (Southern Special Schools Sports Association), which involves participating in a variety of sports throughout the year against up to 16 other special and SDS schools.

The Inter-School Sports competition brings together students from schools across Southeastern Melbourne to participate in a series of competitive and inclusive sporting events held at various local venues. This program offers students the opportunity to represent their school, develop teamwork and sportsmanship, and challenge themselves across a range of sports.

Hosted across multiple locations throughout the region, the competition encourages students to engage with peers from other schools, build new friendships, and experience a positive and supportive sporting environment. The event promotes physical activity, fair play, and community connection while fostering confidence, resilience, and leadership skills.

This inter-school competition is a valuable opportunity for students to stay active, connect with others, and celebrate participation and achievement in sport.
