

# Term 2

# Visual Arts

This term, students have enjoyed participating in a variety of engaging art experiences that encouraged creativity, imagination, and self-expression. They explored different art elements, including colour, shape, line, texture, and pattern, through a range of hands-on activities and projects.

Students worked with various materials such as paint, paper, collage items, clay, and recycled materials, developing their confidence and artistic skills. They experimented with different techniques, shared ideas with their peers, and learned how to make creative choices in their artwork.

Art activities also supported the development of fine motor skills, problem-solving abilities, and creative thinking.

It has been wonderful to see each student's confidence grow as they explored and created. They should be proud of their efforts and achievements this term I have thoroughly enjoyed supporting their artistic learning journey and celebrating their creativity.
