

What did your child learn about at school?

- When we're sharing a device with another person, it is helpful to have different roles, such as driver and navigator.

Sharing Devices

Driver

Touches iPad

Asks questions to the navigator

- How do I?
- What do you think?

Listens to the navigator

Navigator

Points (without touching)

Offers ideas

- You could try...
- Another way could be...

Hands off helper

- There are steps we can take to ensure our devices don't get damaged.

Caring for Devices

Some conversation starters:

- What do you think makes someone a good 'hands-off helper' when sharing a device?
- Why is it important to be careful with devices, like carrying them with two hands or keeping food and drinks away?
- Can you tell me how you take care of devices at school or at home?
