by Lshen

At swimming I went to the pool. It was 1.9 metres it was the warm ~~pool~~ pool. The cold pool was deep it was 1.2 metres. My favorite part of swimming is going on the slide because its in the warm pool. And its fun because I will splash when im at the bottom. I like kicking on my

back because I can go very
fast. Do you like swimming?

I think floating on my back is scary because I don't breathe in and out so fast. So I fell into the water. My favorite swimming way is swimming under water.

I like my group because in my group is Ella, Henil, Finn, Ivy, Isabelle, Hunter, and Eshen, Manny, Phoebe and I. Today was the last day and I got to go down the really pale blue slide. The slide had water in it. I also yooosed a life

Today is the last day of swimming and I think swimming is wonderful because we can do lots of different types of swimming skills. My favorite type of swimming is the freestyle. When we do the free style we need to kick our legs and move our arms in a circle motion. First we were using the boards to practice. When we were floating on our back our teachers

Henil

held our backs to build our confidence. Today we also went down the slide and it was fantastic.

When it was my turn I went down the slide excitedly. The slide was really fast and the water in the slide was warm. We also went into the 1.5 metre pool with a life jacket.

First we swam with our legs and then we floated on our back. After we did that we had a dip in the warm pool.

Swimming

I love swimming because there are so many types of swimming. The hardest type of swim is back stroke I think. Last year I went on a giant slide into the pool and I think I would love it even more than last time! Froggy Kick is the easiest type of all I think. It is the easiest because all you need to do is lay on your back make your legs touch your bum

go out and turn to the starting position. I also went down the really bendy slide and at the top it looked like rabbit poop. When I went down it was scary but then I realised it was a water slide. It was fantastic! I loved floating in the deep pool with a life jacket. One of the swimming teachers pretended to be a shark. I love swimming! by Manny

SWIMMING

I definitely think I love it when I do backflips under water and front flips under water. I like to hold my nose under water because I don't want water up my nose. It is wonderful when I learn a new skill. It feels good when I learn a new skill because that means I am better at swimming. In the deep pool we did pin drops and doggy paddles back. On our next swimming we went on the water slide. I almost went off the edge of the slide! But I didn't. The slide was SPECTACULAR!

My favorite thing about swimming is the pin group. I like the pool too. To go we were going to use the Big slide. It was really fast. But it was so so fun. We wore the life jacket that we were. We did doggy pats around the slide was a little bit scary. The teacher caught me.
