

TALK TO YOUR
KIDS BEFORE
EVERYONE
ELSE DOES.....

Are you a parent, carer, educator or youth worker?
Are the young people in your life asking *those*
questions? LET THE EXPERTS HELP YOU!

Continuing the Conversation: Beyond the Birds and the Bees

The most important thing to say during the *birds and the bees* talk is **SOMETHING**.

Young people hear messages about sex and sexuality from a variety of sources including the internet, media, their peers and porn—and it's often incorrect. Hear from a variety of professionals in the field that can give you strategies to talk to young people about growing up, relationships, making healthy choices and staying safe.

Join comedian George McEncroe and local health services to hear from:
Jenny Walsh a sexuality education specialist and school curriculum author from La Trobe University.

An Expert Panel consisting of staff from Family Planning Victoria, Department of Education and Training School Nursing Program and Safe Schools Coalition Victoria.

WHEN: Wednesday 4th of November, 6.30—8.30 pm

WHERE: Coburg Senior School, Alva Grove, Coburg

RSVP: via <http://beyondbirdsandthebees.eventbrite.com.au>
