## TEESDALE PS

It has been a great start at OSH for term 2! Children have been eager to get involved, hang out with their friends and enjoy the array of planned activities. There has been plenty of painting, chalk, loose parts, natural resources and recycled materials being used in full force for children to use for their planned and spontaneous activities. We had activities planned that aimed to have children working together or engage in friendly competition to continue to encourage positive friendships and engagement with each other within our program and beyond. We are excited to be back at OSH for a new term and look forward to all the fun to come! Rachael + Stacey
