CONDITIONING, NUTRITION**

Netball Academy

Cheltenham Secondary College welcomes the return of our Sporting Academies program for 2022.

The Sporting Academies form part of the college's extra curricular program, providing opportunities to enrich a student's school experience, their relationships with peers, build confidence and a sense of connection to the college and the college values.

The Netball Academy teams will begin training in Term 1 with qualified professional coaching personnel. Each team will be entered into a night competition and registered to participate in the Victorian Schools 2022 Championships and The Waverley International school tournament. Throughout the season, which will run in all school terms including holidays, our Academy teams will take part in strength and conditioning sessions, promoting participation, health and wellbeing above all else.

The Sports Academy Program at Cheltenham Secondary College is designed to promote inclusiveness and encourages newcomers to the sport, as well as being a destination for students to enhance existing Netball skills. Students will represent the college in a newly designed team uniform specific to Netball requirements and includes training top and team hoodie.

Academy fees include all 33 weeks of professional training and coaching, training equipment, competition fees and umpiring fees. There will be minimum of two yoga sessions throughout the season. This should be considered as a whole year event, crossing all four school terms. Payment plans are available and CSEF can be used if applicable. Academy Uniform is a separate Compass event.

Academy program from 28 March - 7 November
Cost \$700

New Cheltenham uniform including Netball dress, bib set, training top and hoodie
Cost \$155

As your child has returned an expression of interest they have been added to a Compass event titled "2022 Netball Academy" and the event titled "2022 Academy Uniform". Uniform will require payment before Feb 14 2022
