

## Travelling on a replacement bus

### Accessibility

Most train replacement buses will be low-floor models to assist passengers.

If you need help or cannot board a replacement bus, please contact PTV prior to travelling on **1800 800 007** or speak to our staff at the bus stop for alternative transport to be arranged at no cost.

### Bikes and pets

Bicycles, dogs (with the exception of animals identified by an Assistance Animal Pass) and surfboards are not allowed on train replacement buses.

### Ticketing

Where possible, you should touch on and off at the beginning and end of your journey. When catching train replacement buses, you can touch on and off at your connecting train station.

### Tram services

During these works, Route 67 trams will continue to operate along Glen Huntly Road, Glen Huntly.

Due to replacement bus services operating in the area, you may notice Route 67 is busier than usual.

For more information visit [ptv.vic.gov.au](http://ptv.vic.gov.au) or call **1800 800 007**.

If you're deaf, or have a hearing or speech impairment, contact us through the National Relay Service – for more information, visit [relayservice.gov.au](http://relayservice.gov.au)

# Buses replace trains on the Frankston Line

Wednesday 1 June to  
Thursday 2 June

SPA7487

Authorised by the Victorian Government, 1 Treasury Place, Melbourne.

# We're busy removing level crossings

As part of Victoria's Big Build, we're removing 20 dangerous level crossings and building 13 new stations as part of a more than \$4 billion upgrade on the Frankston Line. It will improve safety, reduce congestion and allow more trains to run, more often.

The Glen Huntly Level Crossing Removal Project will remove the two level crossings at Glen Huntly Road and Neerim Road by lowering the rail line into a trench, and will also build a new Glenhuntly Station.

The new station will feature lowered platforms that will improve safety and accessibility for locals. It will also provide better connections between public transport, shops and community spaces.

These two dangerous and congested level crossings have been fast-tracked for removal, with early construction works underway to remove the boom gates by 2023 and finish the job in 2024 – one year ahead of schedule.
