

JULY REVISION PROGRAM

A SUCCESSFUL PROGRAM

Master Mind Australia tutorials have a history of successfully supporting students to achieve their academic objectives. Students report that they feel more confident to tackle their assessments after attending our holiday programs. To view the student evaluations for previous courses see the 'Program Feedback' tab at mastermindaustralia.com.au

PROGRAM INCLUDES:

Study Skills: This program contains five hours of teaching broken up into one hour a day for the five days. It focuses on units such as exam techniques, stress management, goal setting and time management.

Essay Writing: The essay writing tutorials consist of five hours of teaching broken up into one hour a day for the five days. It re-teaches the structure of a critical essay and reinforces the importance of constructing a sound thesis and topic sentences, and revises how to include evidence to justify these claims.

Subject Revision: These classes consist of 10 hours of teaching over the five days. The program consists of reteaching and revision, and is designed to reveal to students how the work they have learnt in semester 1 will be assessed in their exams.

EXAM PREPARATION

The classes focus on specific topic revision followed by a discussion on how this material is assessed in ATAR-style exam questions. There is sufficient time within the program for teachers to model how to answer exam questions successfully as well as time for students to independently practice constructing their own responses. All our senior school teachers have significant marking experience and know what is needed for students to succeed in exams.

FAQ

How can students be assured that what they have learnt at school will be addressed in the WACE+ Program? The answer to this important question is really quite simple.

- + The foundation of our revision classes is the Western Australian curriculum which is the same syllabus guidelines used by the school.
- + WACE+ keep their classes small which allows students access to more one-on-one time with their teacher.
- + We also send out a questionnaire to all families participating in the program before the classes begin, to find out exactly what topics and texts students have been studying, and this information is forwarded to the WACE+ teachers for inclusion in their programs.
- + This questionnaire also asks families to alert us of any specific weaknesses in the student's knowledge that may have been identified by the school or the student so that specific area can be re-taught by the WACE+ teacher.
