

PARTICIPATION IN EXTRACURRICULAR ACTIVITIES

Continued...

The course is designed to give students the opportunity to practice strategies and techniques needed to approach the actual UCAT exam in July.

Neither student is 100% sure on the intent to study Medicine however appreciate the fact that the UCAT is a prerequisite to do so.

Studies show that students who involve themselves in extra curriculum activities and events relate to associations among secondary student's extra curriculum participation, academic achievement, and educational ambition Guest, A & Schneider, B *Sociology of Education* Vol. 76 No 2 (April, 2003). Pp. 89-109

St Joseph's College recognises that extra curriculum events and activities as value adding and support the inclusion of students to do so as a key component to careers exploration and management benefits.
