

March 2025

Dear Parents/Carers

RE: Enrolling in Mathematics, Science and Digital Competitions 2025

Students are invited to participate in the following Mathematics, Science and Digital Technologies competitions for 2025 that are offered to students throughout Australia, New Zealand and the Pacific Region. The competitions are an opportunity for students to gain a measure of their own achievement in an external examination situation with schools provided with a computerised summary of results and information regarding students' achievements. The questions are designed to cater for the complete spectrum of abilities.

Please note that competitions in 2025 will be held before school, approximately 7.15am dependent on the duration of the test. Students are advised to note the date of the competitions in their diary and calendar. Additionally, students will be reminded of the upcoming competition date and sitting time in the daily Student Notices (Daymap) the week prior.

All students entering the competitions receive a Certificate and an Analysis of Results, suitable for inclusion in the student's portfolio. The analysis indicates which questions the students answered correctly together with the average success rate, success rate state wide, for each question. The analysis is also useful for highlighting the student's strengths and weaknesses in the skills and processes of Mathematics, Science and Digital Technologies. Medals and prizes are awarded by the organising bodies to the top student(s) in each year level.

All entries must be handed in at the office (except ICAS Digital and ICAS Science), together with payment indicating competitions chosen. Entries can only be accepted if the registration is received **by the deadline**. **No late entries will be accepted** and **no refunds** will be made as the school is required to prepay these entries unless a competition is cancelled.

ICAS Digital Technologies & ICAS Science is a self-register and self-payment process directly on the competition website. See information below on the parent payment portal.
