

Active Paths Program:

“A fun way to walk, scoot or ride to school while learning how to be a safe near roads”

Have you seen our brightly coloured footpath stickers in the streets around school?

Our Active Paths are safer routes to school where you can choose to walk from the start markers, or park in one of the streets along the way and walk a shorter distance to school.

When more families choose to park away from school, our school gate entrances are safer for everyone. Less vehicles around the school means less air pollution and congestion.

The start markers of all our Active Paths are located where there is ample off street or on-street parking, so there's no need to stress about finding a park to drop off or pick up your children.

Our Active Path walks only take 20 minutes at most and it's fun to start the day walking with friends. At every road crossing, there's Stop, Look Listen & Think stickers to remind everyone to stop, look both ways, listen for cars and think about your safety before crossing.
