

Where are they now

Amy Urquhart

(Graduated Moonie year 7 in 2007.)

I am currently living in the beautiful Sunshine Coast with my fiancé Kemal, daughter Harlow who is 2 years old and baby daughter Ivy who is 8 months. Having 2 little ones is very challenging but also so great. I have worked in the health care field before staying home as a mum recently, doing aged care support work and high care disability work. I am loving caring for my beautiful girls, as they have already shown me what the highest level of love feels like. I have been studying nursing and Uni and intend to continue in the healthcare field when I eventually return to work. My partner Kemal is a carpenter and is from New Zealand, half Maori and half Turkish, so the girls have a beautiful mixture.

'Warrowa' (my family property) was sold last year and I am so happy that my parents, Lynelle and Warren have relocated to the beautiful Maleny, only 30 mins drive from my home. Myself and the girls visit them often, they are so supportive and helpful and we always have a lovely time together.
