# Having a COVID test

If I am feeling unwell, I need to tell someone.
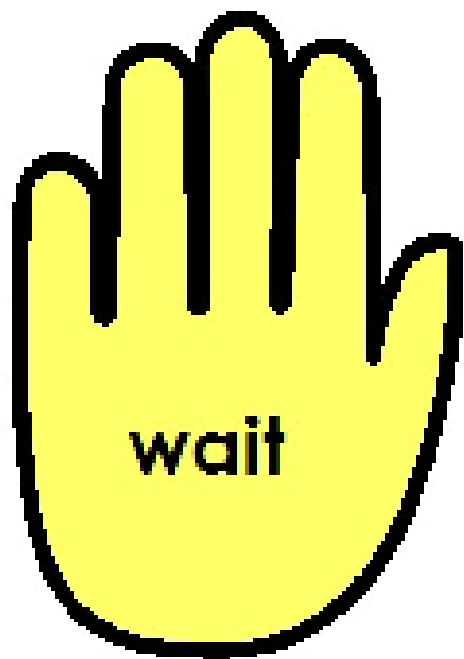

# Coronavirus is around, so I will need a COVID test.

In some clinics we have the test done in our car.

I stay in the car. We might have to wait for a while. I can listen to music or play my iPad.
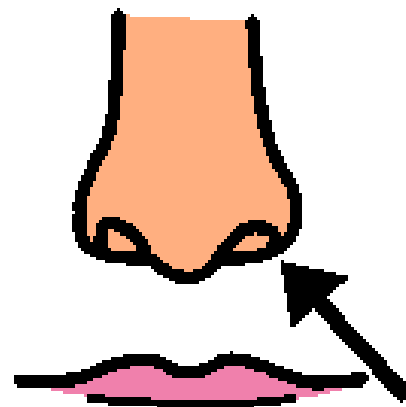

I listen to the nurse and do what they ask.

The nurse will use a swab.
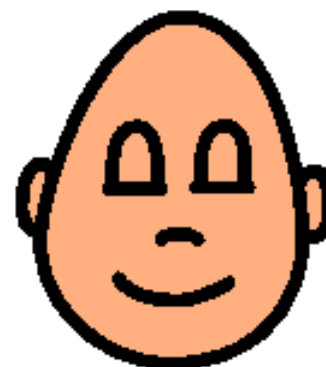

The nurse will swab my mouth.

The nurse will swab my nose.

Mum or Dad will be there to help me.

When it is done, I go home and stay there until I get my result. That keeps everyone safe.

Everyone will be proud of me for being brave.
