

On Wednesday the 29th, the year ones went on an excursion to the zoo. First we went to the educational centre. There were some animals in there. I liked the tortoise the most. Then we saw some more animals. At the zoo we also heard a talk about giraffes. I loved the gorillas. I also kind of liked the monkeys. My favourite animals in the whole zoo were the snakes because they were fun to watch. I had lots of fun at the zoo.

On Wednesday we were little explorers. 1 blue and 1 white went to the zoo. We had Samantha and 1 white had Sally. We did a lot of walking. I was huffing and puffing. It was really tiring. We saw a lot of animals. We saw giraffes. They had long necks. We saw snakes. They were blending in with the environment.

On Wednesday, the year 1s went to the zoo. First we went with our educator. My group's educator's name was Samantha. Then we went into our group's classroom. We saw a snake, some lizards and two tortoises. Then Samantha

opened the glass door and we could see the tortoises clearly. Then we went to the trail of the elephants. We saw a gorilla, elephants and one tiger. Next we went back to the trail to Lemur Island. We saw one more gorilla, lemurs and two monkeys. I had the best day of my life.

On Wednesday the year 1s went to the zoo. Samantha took us to a garden. In the garden there were skulls. Then we went into the zoo classroom. There was snake skin. We fed tortoises. After recess we saw giraffes, a koala, gorillas and a snow leopard. After lunch we saw sea animals, reptiles and... a platypus!

The excursion...I loved it!!!
