MONDAY 25 AUGUST #28

BEHIND THE JOB: Geographic Information Systems (GIS) Analyst

What do they do?

GIS Analysts use mapping software to collect, analyse, and visualise geographical data. They work in urban planning, environmental management, and disaster response to help make data-driven decisions.

What are their strengths?

- Strong spatial analysis and mapping skills
- Knowledge of GIS software
- Ability to interpret and present complex data visually
- Analytical thinking
- Attention to detail and technical expertise

How do they get started?

A Bachelor's degree in Geography, Environmental Science, or Geospatial Science opens career options.

Next steps
