

KELLY CLUB AITKEN NEWSLETTER TERM 1

The past fortnight the children have been involved in a range of different activities. We started it off with an environmental/agriculture week as it was Clean up Australia Day. The children helped clean up rubbish around the school, made things out of recycled materials, had a tour of the school's farm where they were able to harvest some produce, feed the lambs, pat chickens and learn how soil can be made. We later that week used the produce we collected from the farm and made a noodle stir-fry with all the veggies. The children did an awesome job and still want to continue to be environmentally friendly.

Another theme we did was exploring the country of Ireland as it was St Patricks Day. The children made shamrocks, played Gaelic (Ireland's national sport), made leprechaun hats and to end the week, got to eat rainbow toast. The children loved the rainbow toast, they were all very excited to join in.

Important Updates-

An email was sent out to all OSHC families to complete the re-enrol function. Please ensure you complete this as it is an update to our system. If you have any questions please contact us.

Please also double check your children's belongings before taking them home
