

# ROBOPALOOZA Perth 2025

The ROBOPALOOZA festival is the first of its kind, bringing students and industry together to highlight robots and technologies in the space and mining industries.

The festival will feature a global space robotics competition, industry showcase of multiple technologies, STEM activation, music and community celebration!

## What's on

- IEEE space robotics competition with a \$5,000 prize
- Build your own space robot activity licensed by NASA
- Startup company pitch battle
- Robotics demonstrations
- Food trucks and live music

## Register now to avoid missing out!

Stay tuned for more exciting ECU Engineering events in October, including appearances from NASA ARMADAS and the Helelani Planetary Rover.

Scan to register and for more information.
