

Belinda Esperson

In the late 1970s I moved in Year 9 from a local high school to the then newly acquired Blackhall campus. I loved Preshil from day one - the respect for the individual, the beautiful and relaxed school environment and teachers who truly loved teaching. My experience as a student at Preshil has profoundly influenced how I have lived my life since.

My two boys have attended Preshil in their secondary years - Felix successfully completed the IB Diploma last year and Otto is currently in Year 10.

I recently joined the Council to contribute my experience and skills gained in a career in business and design and my experience and understanding of the unique nature of Preshil, to actively support the continued success of the School into the future.
