

Why netball is better than football!

By Belle Whitaker ~4S~Free writing Week 3

Hi I'm Belle and today I'm going to tell you why netball is better than football!

Reason 1: Football is really rough and you can get hurt easily rather than in netball there is less contact

Reason 2: In football the ball is a spherical (3D oval) and is hard to bounce and so there is more pressure to bounce it to the right place on the field rather than in netball the ball is a sphere and is easier to catch if you bounce or drop it.

Reason 3: In netball everyone can play no matter how old you are and you can guarantee you don't have to run!

That's why I think netball is better than football!!!
