

ENGAGING AFTER SCHOOL WORKSHOPS

Each hour-long class is a fun and educational LEGO-building adventure with Bricks 4 Kidz. We use age appropriate models for different levels of building skill.

This hands-on class explores STEAM concepts (Science, Technology, Engineering, Art, and Math) primarily using LEGO Bricks, in which children will develop problem-solving and critical-thinking skills in a fun and engaging way. Even our youngest and newest students will learn how to make mechanical LEGO models that move and groove.

As they advance in building skill, they'll also motorise their weekly model for even more learning fun!

Term 1 - Mission to Space

We will be focusing on Space, often called "the last frontier"! It has inspired scientists, star-gazers and adventurers for generations. Get inspired to go on your own adventure and join us on a Mission to Space!
