Australia**

for a fantastic year!

Oatlands Primary School

Our year in experiences

Hello Parents and children,

This year has seen many challenges, but the children were still able to participate in some enjoyable activities.

We had National Reconciliation Week, where we recognised our indigenous and other members of the community.

We also had science week, where the kids enjoyed making lemon volcanoes, and we discussed our Solar system. We also planted herbs from seed and watched them grow.

Regards, Saskia and team.

Your children's achievements

Camp Australia ran a Four Square competition, and all schools were invited to participate.

After running our in house competition, Raneth was our service finalist.

We held our Talent Show, with some excellent Dance, Karaoke, and Puppet shows.

Our winner was Layla, who sang beautifully.

Children have been participating in Yoga exercise, and mandela art and craft.

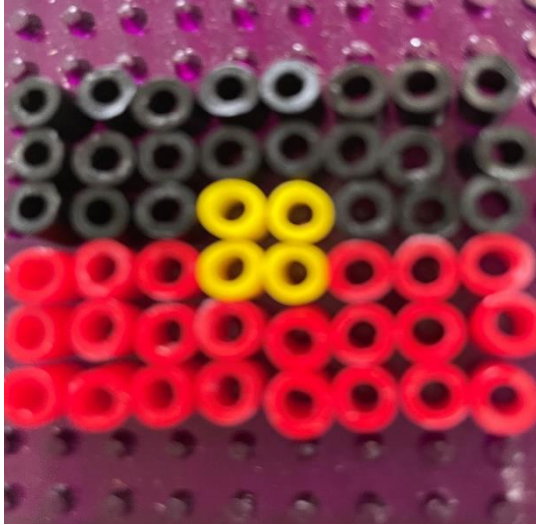

What's coming up in 2022

We are organising cooking classes for the children, where they will be able to select recipes from the Camp Australia Cookbook, and enjoy the results from their efforts.

Of course, we will again be running the Rocketeers program throughout the school holidays,
