

## 2018 IB MYP Audit Results

In November 2018 the International Baccalaureate undertook an extensive audit of our curriculum and assessment, policy and teaching practice. The process involved interviewing a student panel, a group of parents, the College Board and observing a number of our classes in action. The outcome of the report was extremely positive.

### Findings

Our curriculum and assessment is rigorous and challenging.

All observed classes were given high praise.

Our students are positive about their learning and see the benefits of the program.

### Recommendations

Increase opportunity for parent involvement through information sessions and other mediums.

Alignment of our social justice activities with the MYP service learning component.

Conclude the MYP program in Yr 9 so to provide opportunity for student subject acceleration and VCE transition in Yr 10.

### Actions

New parent handbook currently in development.

MYP Parent Conversations to be held throughout the year.

Development of MYP factsheets distributed with each College newsletter.

Introduction of the MYP Community Project in Year 9, which is a 30-hour group based research project, which focuses on making a positive contribution to their local community. In addition, the Community Project complements the many social justice offerings of the College.

MYP will now conclude in Year 9 providing greater opportunity for students in Year 10 to select subjects they are passionate about and better support in their senior pathway choices. This includes opportunities for VCE acceleration, VET and VCAL programs.
