

24 June 2026

Dear Colleague

To ensure we maintain rigorous standards and a coherent, student-centred approach, the Victorian Curriculum and Assessment Authority (VCAA) is seeking feedback from key stakeholders through the **2026 *Have your say on VCE Studies* consultation survey**.

We value the input from diverse voices across the education sector and encourage students, teachers, parents and carers, education providers, subject associations, industry representatives, community groups and other interested stakeholders to complete the survey.

The survey takes approximately 5 - 10 minutes to complete and invites feedback on the VCE study designs as part of our ongoing monitoring and evaluation of VCE studies.

Please support this consultation by:

- sharing the survey link with relevant staff and VCE students
- including the survey in your newsletter or communication channels.

Feedback gathered through the survey will form part of the evidence base for any future review of VCE studies.

The survey is anonymous and will close on **Monday 10 August**.

The survey can be accessed at [Consultation survey: 2026 Have your say on VCE Studies](#).

We are committed to working collaboratively with our stakeholders and will continue to engage with and listen to schools and learners across all sectors.

If you would like further information, please contact the VCE Curriculum Unit, by email to vcaa.vce.curriculum@education.vic.gov.au.

Thank you for your support in enabling your school community to contribute to this work.

Regards

Dr Sean Butler
Executive Director, Curriculum
Victorian Curriculum and Assessment Authority
