

MYP Personal Project News

Congratulations to the Year 10 students who completed their personal project reports and products. Unfortunately, we won't be able to have a physical exhibition this term as planned so I'm sharing some of the wonderful products with you here.

Amelie Le Blanc – paintings of emotions (Fear).

Today I came up with the idea of using art and emotions for my personal project. Recently I have been wanting to make posters and had no idea what to do with the posters. Before the personal project I was drawing ideas in my book, when this project came up, I thought I could use that idea. I feel as if using different colours and shapes can help others understand their emotions.

Supervisor – Mrs Joy Mackey

Gregory Milonas – How to set up a home-based food business

Cooking is one of many passions of mine that I don't always have enough time for. I think this project is important to me because I've always loved making people happy and when it comes to food it's satisfying to see people enjoy and crave something that you have put your hard effort into making. And it's something that at the end of the day makes me want to continue to pursue my passion. Opening a cafe has always been a dream of mine and hopefully if this small business takes off I can eventually do that.

Supervisor – Ms Ashlee Scott

Youssef Henein – A Day in the Life of a Minion

I want to base my personal project on photography, specifically to demonstrate a day in the life of a minion in our world. My goal is to learn the techniques and skills to take professional photographs in any circumstances and environment.

Supervised by Mr Peter Akbiyik
