Marist 6A 73 def. St Patrick's 0

Looking to respond after a difficult loss the previous week, Marist 6A produced a dominant performance to defeat St Patrick's 73-0. Injuries forced several changes to the side; however the team responded strongly with an outstanding first-half display built on powerful forward play and clinical finishing.

Marist's attack proved unstoppable early, with the forward pack working cohesively to generate valuable metres through the middle of the field. Their dominance at the breakdown and in contact laid the perfect platform for the side's attacking rugby. Will Barden was particularly influential, consistently troubling the defensive line and scoring an early try after a powerful run through the middle.

The momentum created by the forwards allowed the backline to flourish, with Eddie Leyden capitalising on the quick ball and space to score three first-half tries in an excellent attacking display. Marist entered the halftime break in complete control with a commanding 35-0 lead.

While the second-half scoreboard continued to grow, the performance was not without its lessons. As St Patrick's struggled to contain the attack, Marist drifted away from its structure and shape at times, with individuals looking to play too independently rather than committing to the team-first style that defines Marist Rugby.

The side will need to return to playing disciplined, structured Marist Rugby next week against St Laurence's if they are to continue their winning form against stronger opposition.

BYE

6C

The Marist 6Cs were able to come away with a strong victory over the Villa 6Cs in wet conditions. The puddles found pregame didn't slow down the pace the boys played at, achieving a 57 point win.

Multiple tries to Cian Dillon and Percy McDowall saw the boys pull away in the second half and keep the undefeated season on track.

The leaps and bounds in making the extra pass and seeing a teammate score rather than yourself, highlights the Marist spirit the boys possess to play and try to win together.

Well done boys!

6D

Marist 6D secured a strong 31-10 victory over Padua 6C with an impressive display of teamwork, resilience, and attacking flair. From the outset, Marist controlled the tempo through disciplined defence and powerful carries, creating opportunities across the field. Consistent pressure and sharp ball movement led to multiple tries, while determined defence limited Padua's chances throughout

both halves. Padua fought hard and managed to stay competitive early, but Marist's structure, communication, and intensity proved too strong. The side-maintained control until full-time, earning a well-deserved and confident win.

5A

Marist 5A produced another strong performance against St Patrick's College, coming away with an impressive 47-7 victory.

The boys were outstanding in the first half, dominating all areas of the game and setting the tone early. A special mention goes to the forwards, who laid the perfect platform throughout the match with strong carries and hard work around the field. Their effort gave the backs plenty of quality ball, allowing them to take advantage and score a number of excellent tries out wide on the wing.

A standout performer was Robbie Dixon, who was a wrecking ball through the middle of the field. His hard running consistently bent the line and his physical defence and tackling made a big impact all game.

Overall, it was another excellent team performance with everyone contributing strongly to a very good win.

5B

This was one-way traffic which featured a remarkable 100% conversion success rate from across our five kickers. The challenge was to spread the ball wide to the wings in the second half and this worked a treat. Strong play from Tyson Thomas, Nate Townsley and Hamish Stuttard set up play for us. Reise Hohn was player of the match for his tireless work rate and versatility in different positions.

5C

5C put on an absolute clinic this week, running away with a massive 91-0 win over Padua in one of the most dominant performances of the season.

From the first bounce, the boys were switched on, moving the ball with confidence and intensity all over the ground. The team linked up brilliantly with some seriously good runs through the middle and down the wings, creating scoring opportunities all day long. Pressure was high, skills were sharp, and the effort never dropped for a second.

A massive shoutout goes to George Jarrett and Zach Riordan, who volunteered to even out the teams and still played their hearts out all game. Huge respect to both of them for stepping up and giving everything out there.

Across the board, everyone contributed and played their role. It was one of those games where everything clicked, great teamwork, great energy, and just really good footy all around.

A huge win for the boys and definitely a game to remember.

5E

SLC 5C 30 def. Marist 5E 17

Marist 5E produced a spirited performance against SLC 5C, eventually going down 30-17 in an entertaining contest. Despite the result, the team displayed great teamwork and commitment throughout the match, continuing to compete strongly until the final whistle.

A highlight of the performance was the team's execution of the Marist catch-pass style of rugby, with players moving the ball confidently and creating several attacking opportunities across the field. Their willingness to back themselves and play positively resulted in some excellent passages of play.

Jack Alexander was outstanding in attack, running freely throughout the match and proving difficult for the opposition to contain. His strong support play and pace were rewarded with two well-earned tries, capping off an impressive individual performance.

Overall, the team can take plenty of positives from the match, particularly their teamwork, effort, and commitment to playing an attacking brand of rugby.
