

## What's been happening...

### Let's wrap it up...

Hello all!

These past two weeks we have completed and evaluated our Sustainability projects and FOMO Clubs. We have received positive feedback from the children and the families about our program this Term and we will continue with similar and new, fun activities for Term 2.

This past week we have conducted many reflections upon our routines and transitions, we strive to adapt these to better support children attending OSHClub and to make our practices child friendly.

We will conclude this Term with some fun Easter activities and an End of Term party this Friday. Next, we will focus on setting up our environment for the upcoming school holidays. We would like to keep our campsite and dress up area as all children are enjoying this so much. If you have any suggestions, we would like to hear them.

[With the end of the Term fast approaching, we are starting to plan for the upcoming school holidays.](#)

[Please make sure your child is booked prior to the first week of the holidays as it helps us as well to organise resources and staffing.](#)

See you all soon, have a Happy Easter :)

## Coming Up

Apr  
11

### Start of the Holiday Program

Bookings are essential. Please remember to pack a lunchbox

Apr  
15

### Good Friday

OSHClub will be closed on Good Friday

May  
2

Have a cuppa, on us!

## Special Announcements

### We need you...

We are collecting natural materials to create an indoor forest / camping site. We would love for you to share some sticks, logs or large stones, an old tent or teepee, if you have them!

## Club News

### Club FOMO updates

**Baking Class:** This fortnight we have made some really yummy treats with our mini bakers. We concluded our Baking Class with some cake pops.

**Science Lab:** Science has always been a favourite at OSH. We have experimented with liquid viscosity, reactions of different components and learnt about catalysts. We made our all-time favourite, exploding elephant toothpaste and Inflatable gloves.

**Arts, crafts & DIY's:** In our Arts masterclass, we created some amazing embroidery. We were surprised how interested children were with this and they have requested to do in again.

FOMO is finished for this Term we will revisit this for TERM 2!
