This week we are kicking off with the introduction of our two Vice School Captains: Anna Honeyman and Jake Colton.

Leader Profile

Getting to Know the Leader

Jake Colton is MPS' Vice School Captain for 2025.

Jake describes himself as inquisitive, enthusiastic and hard-working.

Your Role as a Leader

The first thing Jake wants to do as a leader this year is to help run assembly smoother and quicker.

Jake is inspired by Jiwoo, a school captain in 2022 because he was an all rounded student and had a positive effect on the school.

For Fun

Jake would choose to speak to others using his mind, he would choose this because he could explain ideas to others more easily.

Jake's favourite book right now is called Sapiens: a graphic novel. This book is about history and the evolution of humans.

Looking Ahead

Jake hopes people remember him as a leader who impacts the school community in a positive way outside and inside of school!

Jake's big dream for the future would be to become a basketball player and to a person who gives back to the community.

Leader Profile

Getting to Know the Leader

Introducing Anna Honeyman who is our Vice School Captain.

Anna describes herself as being Respectful, Creative and Kind.

Your Role as a Leader

Being a school leader, Anna thought she would be able to help others and share her ideas with the school to make it a better place.

Anna says that her mum is her inspiration because she works hard everyday and always tries to look on the positive side. Similarly, her dad because he always tells her to try your best and if you can't find your way through something, keep trying.

For Fun

When Anna is not "on duty" as a leader she likes to do SEL, art, music and English. She also likes spending time with my friends.

Anna says she doesn't really have a favourite book but her favourite style of books are graphic novels. Anna says her favourite film is Star Wars and her favourite song is Riptide because the part of the song that says "Taken away by the dark side" makes her think of Darth Vader from Star Wars.

Looking Ahead

Anna's dream for the future is to help the environment by becoming a marine biologist or a scientist and she would also want to express her ideas and feelings by being an artist or an actress.

Anna's message to the community is: Be good to your teachers, ask for help whenever you need it, pick up your rubbish, clean your room and follow your dreams!
