

# Annual Secondary School Vaccination Program

## Collection Statement

### Contents

#### Parents/guardians of Year 7 and Year 10 students

Dear Parent/Guardian,

#### RE: Secondary School Vaccine Program

The Secondary School Vaccine Program offers free vaccines to help make sure students and communities are protected from diseases such as diphtheria, tetanus, whooping cough, human papillomavirus (HPV) and meningococcal A,C,W,Y.

Local councils deliver the program and schools distribute the information and consent card booklets.

The *Public Health and Wellbeing Regulations 2019* authorises secondary schools to provide their local council with student and parent/guardian contact information for any student scheduled to receive a vaccination. This information assists local councils to follow-up parents/guardians of students with incomplete or missing consent cards.

#### What information goes to local council?

Schools provide the following basic student and parent/guardian contact information:

- Student name, gender, date of birth, year level, class, language(s) spoken at home
- Parent/guardian names, phone numbers, email and postal addresses

#### Why do schools provide this information?

- To ensure all Year 7 and Year 10 students are offered the opportunity to access free vaccinations at school.
- To improve communication with parents/guardians regarding their child's vaccination needs
- To reduce the administrative burden on school staff to follow-up consent cards

#### What do I need to do?

1. Your information will be provided to Mornington Peninsula Shire in March 2020. If you do not wish for your details to be provided, please advise the school in writing **before 28 February 2020**.
2. Read the information provided in your child's consent card booklet and complete all sections, regardless of whether or not you consent for your child to be vaccinated as part of the school-based program.
3. Detach Part A of the consent card booklet with all fields completed, and return to school.

Every day vaccination saves lives and makes it possible for Victorians to live free from the illness and disability caused by many infectious diseases. All Year 7 and Year 10 Victorian secondary students can receive these vaccines for free.
