

# HEALESVILLE SANCTUARY

At 8:30 in the morning we hurried to the bus. After the long 1hr and 30 minutes drive we hopped of the bus in excitement. When we got to the sand pit we had recess. I had a really juicy apple. Once we had recess we hurried to the tasmannian Devil. The tassie Devil hopped around so fast, then it went into a box. After thirty minutes we strolled to the wombat's enclosure. The wombat <sup>was</sup> shuffling around minding its own business. It was cool that the wombat was out and about. Once we had seen the wombat, all of us had to rush to the Animals of the night because we didn't want to be late for the bird of prey. In the Animals of night room my eyes needed to adjust because it was so dark. Everyone had to be as quiet as a ninja because there was a new Animal. After that we had lunch but we had to be very quick because of our next session. Once we had finished our lunch we quickly walked to the birds of prey, we only had 7 minutes. The birds of prey show was so cool kakatoos flew over everyones head and a falcon sawed over the trainer. Healsvite sanctuary was so fun.

Altho the lassie devil was the highlight of my day I still loved to make the nesting box out of cardboard and connectors.
