St. Leonard's OSHC, Glen Waverley

A Week of Discovery, Creativity, Culture & Fun!

A message from the team

Dear Families,

What a wonderful and engaging week we have had at MACSEYE OSHC! The children enjoyed a variety of experiences that encouraged curiosity, creativity, physical development, independence and a strong sense of belonging.

- Science Week was a great opportunity for our children to explore, question and discover. They engaged in simple science experiments, enjoyed science trivia and quizzes, shared their knowledge, ideas and observations, explored and read interesting science books.
- Clay Modelling & Paper Craft was a big attraction. Children enjoyed molding, shaping and creating their own imaginative designs. Children also worked on a range of paper craft activities to create unique artworks.
- Developing Sports Skills: Our children continued to develop their sports and movement skills through a variety of active games and activities.
- Cooking Fun: Children enjoyed a wonderful variety of foods during afternoon tea: Cheesy Pasta. Nachos. Pita Bread wraps. Crackers with dip. Noodles.
- Cultural Day: Our cultural day was very special. Children came dressed in clothing representing their culture and heritage and proudly participated in conversations and talks about cultural backgrounds.

Thank you, children and families, for making our OSHC community so special!

Rency Biju
