

## Essential clothing for Camp Marysville

Please note: most gear required for the snow day will be provided such as waterproof pants and jacket, ski boots, skis. The jacket provided is waterproof but not warm. A warm jacket will be worn underneath.

**This list is provided by the camp.** Last year, some students did not have adequate clothing for the cold, wet weather. We noticed that some coats weren't waterproof and some students wore converse trainers that got soaking wet very quickly. There is a drying room on site to help dry off wet things over night.

**The cabins are very warm and have bathrooms inside.**
