

## PROGRAM FUNDING A BOOST FOR CLIFTON HILL PRIMARY SCHOOL

17 December 2020

Clifton Hill Primary School will receive funding from the Accessible Buildings Program, to improve school facilities and infrastructure that supports students and staff with disabilities, thanks to the Victorian Government.

Member for Richmond today announced that Clifton Hill Primary School has been allocated funding from the Accessible Buildings Program to promote inclusive learning environments, through improved access to modern and functional learning spaces in Victorian schools.

The funding will assist Clifton Hill Primary School in providing modifications for accessibility, to ensure students and staff have access to appropriate school facilities, in line with their peers and colleagues.

The program adjusts existing facilities to meet the needs of those with existing disabilities, as well as disabilities that occur as a result of an accident or the deterioration of existing conditions.

The Labor Government is building the Education State to ensure that every student can access a great local school and get a great education.

In the past five years, the Victorian Government has invested more than \$9 billion in more than 1,600 school upgrades – creating more than 10,000 construction jobs – and is now ahead of schedule its commitment to open 100 new schools by 2026, with 48 new schools opening between 2019 and 2022.

### Quotes attributable to Minister for Education James Merlino

*“The program helps to ensure all Victorian government students of all abilities can get a great education and have access to modern, functional learning spaces to give them the best chance to succeed and thrive in school and in life.”*

### Quotes attributable to Richard Wynne – Member for Richmond

*“As we build the Education State, we’re continuing to invest in schools to ensure students of all abilities can get a great education – no matter their circumstances.”*
