

# “The Many Hands of Montrose”

Announcing **The Many Hands of Montrose** – A Special Community Project 🤝👐

We're excited to announce **The Many Hands of Montrose**, a special project developed through a collaboration between the **Montrose Township Group** and the **Montrose Community Cupboard**, proudly supported by the **Yarra Ranges Council**.

You may have already seen some of our social media posts about this project, but here's a quick rundown of what's coming your way!

## **What is *The Many Hands of Montrose*?**

This project will bring our community together through a series of **free events** focused on **connection, creativity, and sustainability**. Throughout these events, we will explore how every action — big or small — helps make Montrose a truly special place to live, work, and play. The theme of “**Many Hands**” symbolises the power of collective contribution and care — each person who takes action, contributes, or cares for someone or something plays *an essential role in our community*.

A **creative element** will be woven throughout the project, and we're thrilled to announce that a **final artistic outcome** will be showcased at the **Flower Festival** this October. It's going to be a beautiful expression of the collective spirit of Montrose!
