New Streamlined Science Degree

Federation University's two specialised degree – Veterinary and Wildlife Science, and Environmental and Conservation Science – are now streamlined into the *new* [Bachelor of Science](#).

Students can now apply for the Bachelor of Science degree, and graduate with the Bachelor of Science (Veterinary Bioscience) **or** Bachelor of Science (Wildlife and Ecosystem Conservation) depending on the majors they choose.

Other qualifications students may graduate with include –

- Bachelor of Science (Chemistry and Analytical Science)
- Bachelor of Science (Brewing and Food Science)
- Bachelor of Science (Geoscience)

Science and Global Studies Double Degree

Why study a double degree in science and global studies? This course is designed for students who aspire to be leaders in creating social change. Combining global studies with studies in fundamental science will give them the skill set to understand the complex challenges facing cultures and communities around the world and the opportunity to apply their knowledge to affect change. Through this combination, students will not just think globally but study globally as well with overseas travel a requirement of the course.

Students will get to choose from four global studies specialisations (*International studies, International relations, Human rights, or Intercultural Studies - including a language*), as well as a very comprehensive range of science majors.

Students are encouraged to browse [Science and Global Studies at Monash](#) to find out more.

New Commerce Major for 2025

The [Bachelor of Commerce](#) has introduced a *new* major, [Business Analytics](#), in which students can learn how to transform data into valuable business insights.

Business analytics professionals play a crucial role in helping organizations make these data-driven decisions using powerful tools including data visualisation, predictive and prescriptive analytics, and machine learning and deep learning across the applied business disciplines, including accounting, finance, human resource management and marketing. Students may choose to take this as a single or double major within the course.

News from Deakin University

➤ **Casper Test Reimbursement**

Do you intend studying Teaching at Deakin in 2025? If you have sat the Casper test and receive an offer to Deakin, you will be eligible for a reimbursement of the cost of this test.

The \$55 will be reimbursed after students commence at Deakin in Trimester 1 2025. Students do not need to apply for the payment; Deakin will identify and communicate with them at the point of admission.

Find out more at [The Casper Test](#).

➤ **Pathways Finder**

Don't downsize your dreams just because you didn't get the ATAR you wanted, or you don't meet the entry requirements for your chosen course. There are more pathways into university than you might think.

Deakin's **Pathways Finder** helps students discover all the opportunities available to them, so they can walk away with an achievable plan to make their dream course a reality.

Students are encouraged to spend some time familiarising themselves with this useful tool - [Pathways Finder](#).

RMIT's Bachelor of Science offers you the flexibility and choice to complete a degree tailored to your interests.

This 3-year science degree begins with a suite of introductory subjects in which students learn and explore core science concepts across physical, life, data and mathematical science disciplines and develop and strengthen key scientific and transferable skills. Students get to choose from a range of nine majors and numerous minors and study their passions in science. Students may elect to study one major and some minors or opt for two majors.

Students may choose from the following list of majors to learn more:

- [Biological sciences](#)
- [Biotechnology](#)
- [Chemistry](#)
- [Food science and technology](#)
- [Geospatial sciences](#)
- [Mathematics](#)
- [Nutrition sciences](#)
- [Physics](#)
