The Art Competition

We're calling all students to create an A4 landscape picture that celebrates our 'Be green, keep your recycling clean' theme.

Artwork can be on paper or digital. The use of bold colours using paint and/or text is encouraged. Entries may be submitted individually, or as a class or school effort. Kindergarten to year 12 students who attend a school in the Moree Plains Shire area can enter.

The picture should show the importance of recycling properly. Students should consider what goes in the recycling 'yellow lid' bin and how simple it can be to remember to always recycle correctly. They should also think about the environmental benefits of recycling and why we should always recycle.

Paper, cardboard, glass, plastic and tins from our kitchens, laundries and bathrooms are the ONLY five items that should be placed in the recycling 'yellow lid' bins!

Moree Plains Shire Council is working with their waste and recycling contractor, Cleanaway, to host the "Be green, keep your recycling clean" truck art competition.

"Be green, keep your recycling clean"

Always keep your recyclables empty, clean, dry and unbagged to avoid contamination.

Contamination occurs when we place the wrong things in our recycling bins. Items that should never go in your recycling bin are: plastic bags, clothing, green waste, food and liquids.

How to submit

Please read the Conditions of Entry on the back of this leaflet and then complete the entry form. Return the completed entry form to your child's teacher, who will submit the entry with the artwork to:

Jacqui Norrie
Cleanaway, P.O Box 159, Moree 2400
jacqui.norrie@cleanaway.com.au

The winner will have their artwork printed onto the side of a Cleanaway waste collection truck and receive a \$150 EFT card. The runner-up will also receive a \$50 EFT card.

Dirty, gross items such as tissues, nappies, dog poo and paper towels should definitely never be placed in the recycling bin either!

Sticking to the five simple items will help improve the quality of our recycling and prevent recyclable materials ending up in landfill.
