AUSTRALIAN AIR FORCE CADETS

The mission of the Australian Air Force Cadets (AAFC) is to inspire and develop young people in an air and space environment to achieve and maximise their potential to contribute to Australia's future success.

We are an inclusive youth development organisation focused on developing Australia's youth to fulfill their potential and teach valuable life skills, allowing cadets to develop qualities including leadership, self-reliance, discipline, confidence, self-respect, good communication, teamwork and citizenship.

What will you do as an Air Force Cadet?

We aim to give our cadets experiences that will push you further and make you the best version of yourself. From leading sections of fellow Cadets out in the bush to planning and executing your own field activities. All Cadets are afforded the same opportunities no matter their background in order to let them to bring out their best.
