R U OK? Day

Make sure the people you care about R OK.

Sep-16th

Clean up the World Day

Let's help clean up the planet, by pick up trash!

What's been happening...

End of Term!!!

Hello to our families and children!

We hope the last few weeks of term have gone well, we have been busy at OSHClub this term with our three new clubs which were selected by the children, these were Art club, Baking Club and STEM Club. The children have been very engaged in these clubs learning and adapting skills and building confidence.

Within our clubs we have been focusing on sustainability and adapting materials for different uses. We explored and used recycled/reusable materials and fixated on not wasting food and resources during of club sessions. This challenged children to be more resourceful, creative, and adaptable and encouraged them to use their Imagination and problem-solving skills.

These clubs have also assisted In developing children's communication and team work skills especially In regards to the baking club, children were given opportunities to collaborate and negotiate with their peers to successfully accomplish their goal.

That's all from us at OSHClub, Have wonderful school holidays ;)

Special Announcements

Michaela's Resigning

Dear Families, it saddens me so say I'm leaving and the end of this term. I have loved getting to know and connect with you all and especially the children, I will be back to visit :)

New Coordinator

There will be a new coordinator, Maddie taking over the role for term four, she has worked as a coordinator before and has a background in behaviour management.
